Professional Summary

C#/.NET Backend Engineer with 6+ years of experience building and maintaining enterprise software, backend services, APIs, and third-party integrations. Experienced across business logic, service layers, data access, databases, and desktop applications, with a strong focus on end-to-end ownership. Proven experience working remotely with international teams across enterprise, e-commerce, and financial services domains.

Professional Experience

Backend Developer, Mauve Mailorder Software GmbH & Co KG 09/2020 – Present
Remote, Germany

- Developed and maintained enterprise software across **WPF, C#/.NET, ServiceStack, business logic, and NHibernate/MySQL**.
- Designed and implemented **end-to-end integrations** with external services, covering APIs, service contracts, database changes, configuration, and testing.
- Delivered integrations for **payment providers, shipping and carrier services, Amazon, mobile push notifications, and pharmacy platforms**.
- Developed administration functionality for **pharmacy groups and portal customers**, including stock and pricing management across branches.
- Contributed to major **WPF modernization and dialog migration** initiatives, including payment, shipping, end-of-day closing, and Securpharm functionality.
- Resolved complex production issues involving **pricing, foreign currencies, inventory valuation, batch handling, and product integrations**.
- Improved application architecture by introducing **service-layer gateways** for external API communication.
- Modernized the embedded browser component and maintained the replacement through subsequent upstream updates.

Letter of Recommendation

Backend Developer, Saqaya 04/2024 – 06/2025
Remote, England

- Contributed to the **core architecture** and development of backend services for the SavvyBroker  mortgage and financial advisory system.
- Implemented key modules for **client management, scenario modeling, and notification scheduling**, leveraging clean architecture and best practices.
- Integrated **Firebase Cloud Messaging (FCM)** to enable real-time alerts and notifications to users.
- Developed secure and scalable **payment workflows using the Stripe API**, including webhook handling and transaction lifecycle management.
- Integrated various **third-party APIs**, including **Zillow** for real-time mortgage rate retrieval and **Nylas** for email/calendar syncing.
- Utilized technologies such as **ASP.NET Core, Azure, SQL, and Hangfire** for background task automation and service orchestration.

Full Stack Developer, *DevopSolutions*

07/2020 – 01/2022

Remote, Egypt

- Built **ASP.NET Core MVC** applications and developed **RESTful APIs** with **SQL Server** and **MySQL** backends.
- Developed dynamic and responsive front-end modules using **Angular 8+**.
- Delivered key modules for **Amanat Al-Taif**  and **Amanat Al-Baha** , supporting digital transformation and municipal service platforms.
- Designed and implemented **APIs for mobile applications**, enabling user access to city services, requests, and notifications.

Full Stack Developer, *BEEIT*

01/2020 – 07/2020

Cairo, Egypt

- Contributed to the development of a modular **ERP system** using **.NET Core** and **Angular**.
- Built and maintained full-stack web applications supporting key ERP modules.
- Handled **XML data transformation** and performed **database optimization** to improve system efficiency.

.NET Developer, *Freelance Projects*

2017 – 2019

- Launched a user-friendly desktop POS application that simplified sales processes for clothing shops.
- Developed a **web-based system** for a **refrigerator maintenance center** using **ASP.NET**  **Core** and **Angular**, managing service orders, customer information, and technician assignments.

Education

Bachelor of Arts in English Literature, *Tanta University*

2015 – 2019

Grade: Very Good

Egypt

Technical Skills

Backend

C#, .NET, ASP.NET  Core, ServiceStack, ASP.NET  MVC, REST APIs, LINQ, WPF, WinForms

Cloud & Integrations

Azure, Firebase Cloud Messaging, Stripe, Hangfire, Amazon APIs, Nylas, Zillow

Tools & Reporting

Visual Studio, Git, Crystal Reports

Data & Persistence

MySQL, SQL Server, EFCore, NHibernate, ADO.NET 

Frontend

Angular 8+, HTML5, CSS3, Bootstrap, JavaScript, jQuery

Concepts

SOLID Principles, Design Patterns, RESTful APIs, Clean Architecture

Languages

Arabic

Native

English

Upper-Intermediate

Certifications

C# & ASP.NET Training, *IBM, Tanta*

2016

Programming with C#

OOP and ASP.NET Web Application

Accredited course with completion certification
